PERSONAL AND PROFESSIONAL TIME MANAGEMENT THE MESSAGE

Transform your professional and personal life from chaos to clarity. Learn practical steps for balancing achievement with enjoyment

- Have you struggled with setting a goal and not following through?
- Do you beat yourself up for starting big, losing focus, and quitting?
- Do you get pulled into time use that does not match your values or what you enjoy?

You can have peak professional performance and enjoy life BUT..... time and energy are limited resources. You must make strategic choices about how you spend it and I can show you how.

THE DILEMMA AND YOUR GUIDE

When you spend your time in ways that drains your energy, you lose the ability to direct your life.

I understand where you are. I lived this experience. I was successful on the outside yet found myself over-working and over-functioning. As a former President and CEO, I've held positions in all phases of executive leadership. I am certified to administer professional development tools, and have a master's degree in education. I used to be a hamster on a wheel, cramming in just one more task. I have discovered a life of fulfillment and joy using very specific strategies for personal and professional time management and have enjoyed a front row seat too! watch dozens of women I've walked beside do the same.

I now take consistent, courageous, bite-sized actions to achieve my goals and enjoy both professional and personal fulfillment. You can too!
